--- Data not available. Complete coverage of all states for the Hispanic origin variable began in 1997.

NOTES: For cause of death codes based on the *International Classification of Diseases, 9th Revision* (ICD-9) in 1980 and ICD-10 in 2010, see [Appendix II, Cause of death](#); [Table III](#); [Table IV](#). Starting with 2003 data, some states allowed the reporting of more than one race on the death certificate. The multiple-race data for these states were bridged to the single-race categories of the 1977 Office of Management and Budget standards, for comparability with other states. The race groups, white, black, Asian or Pacific Islander, and American Indian or Alaska Native, include persons of Hispanic and non-Hispanic origin. Persons of Hispanic origin may be of any race. See [Appendix II, Race; Hispanic origin](#).
